

MEMORANDUM FOR: ¹⁰ The Director

Executive Registry
74-7554/2

You returned [] report on OER's production with the direction that we brief the NSCIC, PFIAB, RAB, and the Congressional Committees on the report. May I suggest rather than briefing on this single aspect that we wait until we have finished our evaluation of DDI and S&T production with a view to developing a briefing based on the total results.
